## SaCTHE

Shaping the future of Health Professions Education

## SAVEETHA INSTITUTE OF MEDICAL AND TECHNICAL SCIENCES,

Chennai, India

## ASSIGNMENT

### Modules[Course] 1.1, 1.2, 1.3

1.1 Identify and list the fundamental components stepwise in educational planning specific to health professions education.

1.2 Explain principles in planning educational process for effective learning.

1.3 Apply educational planning principles to propose viable solutions.

Standard Books as already prescribed:

Part A: Identify and list the fundamental components stepwise in educational planning specific to health professions education.

- List the step-by-step fundamental components of educational planning in health professions education. [provide a brief description of an educational spiral]
- Include a brief description for each step (e.g., needs assessment, setting objectives, content selection, implementation, assessment, and evaluation).

Part B: Explain Principles of Educational Planning

- Explain any five principles that guide effective planning of the educational process.
- Each principle should be explained with a relevant example or application in health professions education (e.g., learner-centeredness, alignment, integration)

Part C: In your opinion list the personnel and the groups who will be involved in educational process and explain their roles?

Expected Submission Format:

- Submits a typed document (PDF or Word).
- Use clear headings for Part A and Part B.
- Part C – Discussion after submission.
- Maximum word count: 500–600 words each part
